DETAILED ACTION

Claims 1, 2, 4, 5, 35 and 36 are pending in the application.

Rejections and objections made in the previous Office Action that do not appear below have been overcome. Therefore, arguments pertaining to these rejections/objections will not be addressed.

Response to Amendment

The amendment to claim 3, as directed, has not been entered since claim 3 was cancelled per Preliminary Amendment A filed November 16, 2001.

Claim Objections

Claim 5 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n).

This objection is maintained since Applicants' did not amend claim 5.

Terminal Disclaimer

The terminal disclaimer filed on March 17, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Pat. 6,503,949 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The following now applies.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in

section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4, 5, 35 and 36 are rejected under 35 U.S.C. 102(e) as being anticipated by Lau et al. {U.S. Pat. 6,503,949}.

Lau et al. disclose products which are the same as some of the products instantly claimed. See, for instance, Example 265 in column 199 and the third compound in columns 501-502 of Lau et al. These two compounds are the same as the third from the top compound listed on page 4 of Amendment B (filed March 17, 2003) and the third from the bottom compound on page 11 of Amendment B, respectively. Also see the pharmaceutical compositions in column 40, lines 27-35.
